OBJECTIVE

Seeking an opportunity to utilize my skills and abilities in an organization that offer professional growth while being resourceful, innovative and flexible.

EDUCATION

- **Ujjain Engineering College** *pursuing, expected in 2025*
B.tech , CSE
◦ CGPA: 6.45/10.00 Ujjain, India
- **St Paul Convent Sr Sec School** *2021*
12th standard
◦ Grade: 91.80% Ujjain, India
- **St Paul Convent Sr Sec School** *2019*
10th standard
◦ Grade: 88.60% Ujjain, India

SKILLS

- **Technical skills**
 - **Programming Languages** : JavaScript , Html/Css , NoSql , C++.
 - **Developer Tools** : VS Code, Postman, Git, GitHub, MongoDB Compass, Node Package Manager (npm)
 - **Database**: MongoDB (NoSql)
 - **Technologies/Frameworks**: GitHub, ReactJS, Redux, Zustand, NodeJS, ExpressJS, Git, MongoDB, Mongoose
- **Soft skills**
Time management, Problem-solving, Teamwork, Leadership, Creativity.

PROJECTS

- **MERN Stack Full Authentication System:**
Tools: vsCode , postman, MongoDB, NPM, Mailtrap(for Email)
Developed a comprehensive authentication system with user registration, login, and password reset functionalities, utilizing MongoDB for data storage. Integrated Mailtrap to send verification emails upon registration, a welcome email after account verification, and a notification email for password reset requests. The system ensures secure access through JWT-based authentication and supports protected routes for authorized user access..
- **E-commerce Cart Functionality:**
Built a dynamic e-commerce cart system using core JavaScript, featuring an "Add to Cart" option and real-time item display. Utilized local storage to retain item IDs in the cart and implemented a responsive price calculation box that updates as items are added or removed. The project is designed for scalability, with an array of objects used to manage item details and pricing.
